

June 11, 2023

Dear God,

I am a widow lady living alone and I will be celebrating my 90th birthday on July 4, 2023. This has given me a special love for my country. What can I do to bring restoration and sanity back to this beloved country of Yours and mine?

God reminded me, "You are the storyteller, so follow your heart."

So, the Story Begins¹

There is a huge, ugly giant roaming our great county, trying to destroy it. He is killing millions of unborn babies, and also making sex slaves of multiplied millions of women and young boys and girls, even as young as three years old. I can only imagine what our Heavenly Father suffers when He watches His creation being abused that way. This giant is tearing families apart and teaching misinformation in pre-schools up through colleges and universities. He is bringing confusion in our government and our justice system. Because of him there have been limited funds to meet the basic needs of the middle- and lower-class families. This demonic giant is trying to steal and control our children. He is also destroying all our history and biblical principles.

We need a modern-day "David" to take this huge giant down. There was a prophecy several years ago that God was raising up a businessman in New York City to bring this country back to God's original purpose, the land of the free and the home of the brave. I heard two of God's modern-day prophets recently agree with the original prophecy.

In the Bible, a young shepherd boy named David killed a huge giant named Goliath, nearly ten feet tall, and then David became the king. I wonder how many there thought he could kill that huge giant. But David did because he believed in and trusted the one true God for his protection. He was not a perfect man, but David was chosen by God.

Just as our modern-day "David" — Donald J. Trump — is not a perfect man, but he has been chosen. The question is, will he be able to take down this huge, evil giant who is trying to destroy our beloved country?

The Answer is Now in Your Hand!

I will be praying for his protection, wisdom, strength, and greater love for our country and for all people. In Jesus' Name, amen!

I believe this was written for such a time as this.

God bless America!

Jean Flinn,
Almost Heaven
West Virginia
